We, the undersigned, were appointed as a committee by L. A. 6111, Green Bottle Blowers, We, the undersigned, were appointed as a committee by L. A. 6111, Green Bottle Blowers, to visit the daily press and emphatically deny the statements made in its columns, alleging that considerable dissension existed in our union, in relation to the charges made against the officials of L. A. 200, in connection with the bringing over of foreign glassblowers. We have already denied these rumors as without any foundation and were surprised to find, that in spite of our denial, the same story reappears in the same issue containing our statement. We now again wish to positively state that whoever makes these misrepresentations to the press, is deliberately stating what he knows to be a falsehood. Our union is a unit in wishing this investigation to continue. There is not the slightest foundation for the rumors of dissension in our ranks upon this question. We wish to make our denial so emphatic that we make it over our signatures, and wish to say that the man who has given these unfounded statements to the press will not back up his story over his signature.
